Amerigo Resources Ltd.

Notes to Consolidated Financial Statements (Unaudited)

(expressed in U.S. dollars)

1 Significant accounting policies

The financial statements of Amerigo Resources Ltd. (“Amerigo”) together with its subsidiaries (collectively, the “Company”) have been prepared in accordance with Canadian Generally Accepted Accounting Principles for interim financial statements and therefore do not include all of the information and notes required for annual financial statements. These statements follow the same accounting policies and methods of application as the most recent annual financial statements, except as described in Note 2. Accordingly, they should be read in conjunction with Amerigo’s audited financial statements for the year ended December 31, 2006.

2 Adoption of new accounting standards

Accounting Changes

Effective January 1, 2007, the Company adopted the revised CICA Section 1506 “Accounting Changes”, which requires that (a) a voluntary change in accounting principles can be made if, and only if, the changes result in more reliable and relevant information, (b) changes in accounting policies are accompanied with disclosures of prior period amounts and justification for the change, and (c) for changes in estimates, the nature and amount of the change should be disclosed. The Company has not made any voluntary change in accounting principles since the adoption of the revised standard.

Financial Instruments

Effective January 1, 2007, the Company adopted the new accounting standards and related amendments to other standards on financial instruments issued by the CICA. Prior periods have not been restated.

Financial Instruments – Recognition and Measurement (Section 3855): The standard prescribes when a financial asset, financial liability and non-financial derivative is to be recognized on the Balance Sheet and whether fair value or cost-based measures should be used to measure the recorded amounts. It also specifies how financial instruments gains or losses should be presented. Effective January 1, 2007, the Company’s marketable securities have been classified as “held for trading” and are recorded at fair value on the Balance Sheet. Fair value is determined directly by reference to published price quotations in the active market where the securities are traded. Changes in the fair value of these instruments are reflected in income and included in shareholders’ equity on the Balance Sheet. The Company has also determined that it has no derivatives, including embedded derivatives.

Hedges (Section 3865): The standard is applicable when a company chooses to designate a hedging relationship for accounting purposes. It builds on the existing Accounting Guideline 13 (acG-13) “Hedging Relationships” and Section 1650 “Foreign Currency Translation”, by specifying how hedge accounting is applied and what disclosures are necessary when it is applied. At March 31, 2007, the Company had no hedging relationships.

Comprehensive Income (Section 1530): The standard requires the presentation of comprehensive income and its components. Comprehensive income includes both net earnings and other comprehensive income. Other comprehensive income includes holding gains and losses on available for sale investments, gains and losses on certain derivative instruments and foreign currency gains and losses related to self-sustaining operations, all of which are not included in the calculation of net earnings until realized. Comprehensive income is being

b) Stock options

Stock option plan

Amerigo established a stock option plan (the "Plan") on April 2, 2003, which was amended on June 20, 2006 at Amerigo's annual general meeting. Amerigo's Board of Directors (the "Board") administers the Plan, whereby it may from time to time grant options to purchase common shares of Amerigo to directors, officers, key employees and certain other persons who provide services to the Company. In accordance with the current terms and provisions of the Plan, the maximum aggregate number of common shares issuable under the Plan must not exceed 10% of Amerigo's issued and outstanding common shares at the date of any grant and the aggregate number of common shares reserved for issuance to any one person under the Plan in any 12-month period must not exceed 5% of Amerigo's outstanding common shares, on a non-diluted basis. The exercise price of an option is determined by the Board and shall be no less than the closing price of Amerigo's common shares on the TSX on the day preceding the date of grant, less the maximum discount permitted by the policies of the TSX, subject to the minimum exercise price per common share permitted by the TSX. Options must be exercised within a five-year period from the date of grant. Vesting periods are determined by the Board.

8 El Teniente Royalty

MVC has a contract with Codelco through at least the year 2021 to process the tailings from the El Teniente mine in Chile. MVC pays a royalty to Codelco – El Teniente on copper and molybdenum produced by MVC. The amount of the copper royalty is determined pursuant to a formula that considers both the price of copper and the copper content in the tailings. No royalties are payable if the copper price is below \$0.80 per pound (for copper content in tailings between 0.09% and 0.1499%); if the copper price is between \$0.80 and \$0.95 the

royalty varies on a sliding scale from 0 to 10%; if the copper price is between \$0.95 and \$1.30 the royalty is 10%; and if the copper price is \$1.30 or higher, a maximum royalty of 13.5% is payable.

Royalty payments for copper production are calculated using the average LME published price for copper for the month of delivery of the tailings, and invoiced by Codelco - El Teniente on a monthly basis within 30 days of the end of the third month following the month of delivery of the tailings; payment to Codelco - El Teniente is made within 10 days of receipt of invoices. Accordingly, royalties payable to Codelco - El Teniente are classified as current liabilities. Adjustments to the El Teniente royalty are recorded on a monthly basis for changes in copper deliveries during the settlement period.

As agreed with Codelco - El Teniente, as of January 1, 2006 the same royalty described in the preceding paragraphs applies to copper extracted from Colihues, except for amounts calculated using half the volume of tailings extracted from Colihues, at an assumed copper grade of 0.32% and an assumed recovery rate of 40%. For these amounts the royalty to Codelco - El Teniente is calculated on a sliding scale from 3% if the copper price is below \$0.80 per pound to a maximum of 15% if the copper price is at \$1.35 per pound or higher.

MVC also pays to Codelco - El Teniente a royalty of 10% of MVC's net revenue received from the sale of molybdenum concentrates.

9 Investment in Nikos Explorations

In fiscal 2004 Amerigo entered into an agreement to sell a 100% interest in three Canadian exploration properties to Nikos for consideration of 10,000,000 shares of Nikos. On August 18, 2006, Amerigo acquired a further 1.7 million units of Nikos Explorations at a cost of \$268,200. Each unit is comprised of one common share and one warrant entitling Amerigo to purchase an additional share of Nikos at a price of Cdn\$0.25 per share until August 18, 2008. At March 31, 2007, Amerigo held 11,666,667 common shares and 1,666,667 warrants of Nikos, which collectively represent approximately 26% of Nikos's issued and outstanding share capital (including the common shares issuable on the exercise of the warrants).

The investment in Nikos is accounted for using the equity method, given that Amerigo has significant influence over this investment. An investment loss of \$161,901 was recorded in the quarter ended March 31, 2007. At March 31, 2007, Nikos's common share closing price was Cdn\$0.265 per share.
